

-  Fuel use reduced by 5-10%
-  Revolution of the head increased by 200-300 rpm, providing a better cut than other trimmer lines
-  Noise reduced by approx 10 dB, giving an effective sound reduction of approx 50%
-  Thanks to the aerodynamic shape of this line, it runs smoothly without „wagging“. This facilitates precise working and reduces the risk of the line fusing or melting.
-  The special shape of the line together with the high quality resin material help prevent fraying and splitting. This makes the line longer-living and more wear-resistant than other lines on the market. Round-line \*Tornado\*

\*values correspond to a 2,0 diameter mm line

## COUNTERDISPLAY

### Order no. 6-384

The display includes 16 x 15 m loops of „Tornado ALUCUT“:

4 x Order no. 6-3901 Line-Ø 1,3

4 x Order no. 6-3911 Line-Ø 1,6

4 x Order no. 6-3921 Line-Ø 2,0

4 x Order no. 6-3931 Line-Ø 2,4

**You only pay the goods value: the display unit comes free!**
